ABOUT ME

I'm Shafin Murani, a passionate software developer skilled in full-stack technologies like React.js, Node.js, MySQL, Express.js, and Flutter. I take pride in delivering top-notch web and mobile applications that meet client expectations. I'm adaptable and excel in problem-solving, ensuring projects are completed on time. Outside of work, I enjoy riding motorcycles and playing chess, which helps me stay sharp and focused.

SKILLS

Web-app security	Linux	JavaScript	Rust	Firebase	Docker
App development	Flutter	TypeScript	Arduino	AWS	Node.JS
Web development	React	Express.JS	Python	MongoDB	Git

PROFESSIONAL EXPERIENCE

Freelancer

2022 - Present

Cross-platform developer

As a freelance software developer, I specialize in full-stack development using React.js, Node.js, MySQL, Express.js, and Flutter. I've delivered dynamic web and mobile applications, focusing on quality and efficiency to meet client expectations and ensure timely project completion. My adaptability and strong problem-solving skills enable me to tackle diverse project requirements with ease.

Evansh Services

August 2023 - August 2023

Intern

I developed basic Windows Forms applications with VB.NET, learning the fundamentals of Visual Studio and VB.NET in the process. This experience provided a solid foundation in application development and IDE usage.

Yesha Software LLP

June 2024 - August 2024

Intern

During my internship at Yesha Software LLP, I worked on a CRM and Service Renewal Management website using React. We moved an old PHP system to a new React.js app. The project was finished in 6 weeks with high quality and functionality.
